FIRED ON THE VESSEL.

Filibustering Steamers Stopped by a War Vessel.

EXCITEMENT OFF FLORIDA COAST.

The United States Cruiser Raleigh Captured the Dauntless and Mabrey—Both Tried the Heel Trick, but It Didn't Work—General Weyler Issues Another Proclamation—Other Cuban War News.

JACKSONVILLE, Fla., Oct. 23.—The United States cruiser Raleigh has captured the filibustering steamers Dauntless and R. L. Mabrey. The Raleigh came south under orders to seize the Dauntless at all hazards. Wednesday night when the Raleigh arrived at St. Augustine her commander was informed that the Dauntless was below New Smyrna waiting for the tug R. L. Mabrey to bring a cargo of coal and also arms.

The Raleigh immediately steamed south and at 5 o'clock yesterday morning discovered the steamer Dauntless taking on a cargo of coal from the steamer R. L. Mabrey off Mosquito inlet. As the war ship bore down on them the filibusters started in opposite directions. A signal from the Raleigh was disregarded by the Dauntless, and the latter vessel crowded on steam and tried to escape. Then the Raleigh fired a blank cartridge, which startled the New Smyrna people and sent them to the housetops, where they could scan the sea.

They saw the Raleigh in hot chase of the Dauntless, the latter apparently going as fast as the cruiser. Then the Raleigh sent a solid shot across the filibuster's bows, but still the latter pursued her course. Another solid shot was fired by the cruiser, which struck the water near the Dauntless, and threw the waves all over her. Then the Dauntless came to, and the Raleigh sent a prize crew on board.

As the Raleigh and Dauntless came up the coast the tug R. L. Mabrey was sighted. The Mabrey was headed for Mosquito inlet and tried to escape, but was brought to by three solid shot in quick succession from the Raleigh. Two of the shots struck within 10 feet of the Mabrey and caused the little tug to reel as though she had been dealt a mortal blow.

The two prizes were towed up the coast to the St. Johns bar and are anchored inside the river, with the cutter Boutwell alongside. The Dauntless had just arrived from the south and is supposed to have been preparing to carry another expedition to Cuba. The Mabrey has been acting as a tender for the filibustering steamers.

W. A. Bisbee, owner of the Dauntless, says the latter had a perfect right to go where she pleased on legitimate business. She had given up coastwise papers and had a deep-sea register, and he claims was engaged in legitimate work, that he had engaged the Mabrey to carry coal to her, and that the seizure is an outrage.

The government officials do not seem to know what charge is to be preferred against the Dauntless, as they are acting entirely under instructions from Washington. The instructions sent to the commander of the Newark, which were transferred to the commander of the Raleigh, were sealed and no communication has been had with him.

WEYLER'S LATEST MOVE.

Another Proclamation Issued by the Captain General of Cuba.

HAVANA, Oct. 23.—Captain General Weyler has issued a proclamation containing the following provisions:

First—All of the inhabitants in the country or outside the lines of fortifications of the towns must betake themselves to the towns occupied by troops within a period of eight days. Those who are found outside the towns after the expiration of that period will be considered rebels and will be tried as such.

Second—The withdrawal of groceries from the towns is absolutely prohibited and also the transportation of them by sea or land without a permit from the military authorities. Violators of this provision will be tried and punished as aiders of the rebels.

Third—Proprietors of cattle must carry them to towns or provide immediately that they shall receive due protection.

Fourth—Eight days after the publication of this proclamation all rebels surrendering in every municipality will be subject to the captain general's disposal to order them where to reside, and it will be a recommendation in their favor for them to give available news about the enemy and to surrender with their firearms and moreover to surrender collectively in their organizations.

Fifth—The proclamation is only enforceable in the province of Pinar del Rio.

The procession was composed of 20 royal carriages and was preceded and followed by strong detachments of cuirassiers. Their majesties and the princess were continuously cheered by the crowds. Military bands were stationed at intervals along the route and played the national anthems of Italy and Montenegro.

BIG FIRE IN BROOKLYN

Loss of One Life and the Injury of Several Persons.

A PROPERTY LOSS OF \$250,000.

One Fireman Overcome in the Burning Building and the Rescuing Party Have a Narrow Escape Before They Secure Their Comrade's Dead Body—The Destroyed Property Well Insured.

NEW YORK, Oct. 23.—A disastrous fire occurred in Brooklyn last night which resulted in the loss of one life, the injury of several persons and the destruction of property amounting to about \$250,000. The 5-story brick factory building situated on Seventh street between Second and Third avenues was totally destroyed.

The building a frontage to 200 and extended 160 feet with three-story frame extension adjoining. The first and second floors of the building was occupied by O. E. Wissner, manufacturer of iron and steel spring beds; third floor by J. Erim & Wauthers Brothers, diamond setters, and the fourth floor by the Etta knitting mills, a manufactory of ladies underwear.

A large quantity of paints and oils and other inflammable material was stored in the building and it is believed the fire originated in this section. In a very few moments the entire structure was ablaze.

It was shortly after the fire began that Alfred Bauman, with the assistance of Foreman Bixby and Fireman John Quigley, were carrying a hose through the extension, when they were caught in a back draught. Quigley and Bixby managed to gain the street, but Bauman was unable to do so. A rescuing party, consisting of James J. Ryan, assistant foreman of truck No. 1, and Franklin Furguson and Louis Blair of engine company No. 5, attempted to make their way through the burning ruins.

They were all severely burned, but managed to reach Bauman, who, however, had been burned to death. In less than a half hour after the fire started the roof fell in. By hard work the adjoining buildings was saved. The building was owned by Mr. O. E. Wissner, who places his total loss on building and stock at \$25,000, partially insured; Kreiman Brothers \$1,500 and the knitting mills about \$40,000. The greater part of this loss is covered by insurance.

Assistant Attorney General Todd made the motion to postpone the case until after election.

It is believed here that after the argument in Walling's appeal both it and Jackson's cases will be submitted to the same judge for a written opinion.

MILL MANAGER BESIEGED.

Two of His Assaultants Killed and Four Others Wounded.

CHIPLEY, Fla., Oct. 23.—Besieged by infuriated negroes, J. M. Criglar, manager of Hagerman's lumber mills at Hager station, four miles west of here, defended himself with such effect that he killed two of his assaultants and wounded four others. Criglar became engaged in a quarrel with one of his employes and the other negroes drew pistols and began firing at the manager. Criglar ran to his office, locked himself in and opened fire with a Winchester on the maddened negroes who surrounded the building.

For an hour the battle continued and when the Louisville and Nashville train arrived at the station the negroes were preparing to set fire to the building and cremate Criglar. The train crew and passengers, however, rushed to Criglar's aid and dispersed the negroes. The negroes had fired over 200 bullets into the building, but Criglar escaped by lying on the floor. As soon as the negroes fired a volley, however, he would rise and shoot at them through the windows.

The negroes killed are Amos Judson and John Alexander.

The wounded are Henry Simpson, Jack Nobels, Andrew Miller and Albert Lester. Simpson and Lester are thought to be fatally wounded.

ONLY two persons turned out at Covington Thursday morning to receive Secretary Carlisle!

OUR Mt. Gilead correspondent has something interesting elsewhere in response to the figures recently published in the Public Ledger.

The Public Ledger (gold standard paper of Philadelphia) in its leading editorial of July 14, 1896, page 8, column 1, said: "It is obvious that with this privilege (free coinage) extended to silver our correspondent could not go into the market and buy 412½ grains for much less than \$1."

I HAVE been called an anarchist because I have opposed the trusts and syndicates which would manage this country. I am glad to have the opposition of these men. I am glad that if I am elected there is not a trust or syndicate that can come to me and say: "We put you there. Now pay us back."—W. J. Bryan.

THE C. J. ON COLONEL BRECKINRIDGE IN 1894.

In September, 1894, the Louisville Courier-Journal in a scathing editorial setting forth reasons why Col. Breckinridge should not receive the Congressional nomination, said, among other things:

There is hardly a Republican paper in America which is not sneering at Kentucky Democracy because of Mr. Breckinridge's candidacy, and there is, outside of his district, scarcely a Democratic paper which is not indignantly repelling such indictments. Let Mr. Breckinridge be nominated, and it will cost the National Democracy respect, confidence and votes in every quarter. How puerile it is, therefore, to say that it is impertinent for Democrats outside of his district to concern themselves in any way.

That was only two years ago. What must the Republicans of the Seventh district think of their nominee, anyhow!

WHAT FARMERS HAVE LOST.

"The farmers of the country," says the Hunterdon (N. J.) Democrat, "received \$382,303,358 less for their wheat, corn, potatoes, rye, barley and buckwheat in 1895 than they did for the same products in 1880. In other words, they had nearly \$400,000,000 less to spend or use to pay off their mortgages last year than they had fifteen years ago, from the shrinkage in these crops alone. Can any one wonder that times are hard except to the money dealers? If there be such a gigantic loss in the case of these products this year, the loss to the farmer from his entire products will amount to more than \$800,000,000 which would otherwise be circulating among the retail merchants of the country, and in every other avenue of trade."

Always in the history of the world the men who have attacked the possessors of special privileges, the leaders who have ranked humanity higher than wealth, have met the charge of demagoguery. Cromwell and his followers were demagogues in the estimation of the lords and gentlemen of England. Jefferson met bravely the reproach of demagoguery when, as a member of the Virginia house of burgesses, he checked, as he believed for the time, the development of an American aristocracy by prohibiting laws in recognition of entailment and primogeniture. The world has never harbored more conspicuous demagogues than William Lloyd Garrison and Wendell Phillips, nor in the crisis of today are the prosperous tory merchants of Boston more harmoniously united in antagonism to the men who are fighting for the freedom of all labor than were they in 1853 to those who preached from dingy printing offices and on street corners the revolutionary doctrine that black men should not be enslaved.—New York Journal.

The Discovery Saved His Life.

Mr. G. Caillouette, druggist, Beaverville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at J. James Wood's drug store.

PREDICTED.

The Big Political Wheat Corner Forecasted By Shrewd Robert Lindholm.

[Cincinnati Enquirer, October 22.]

The exposure by the Enquirer yesterday of the existence of the gigantic syndicate of Republican managers having for its object the working of a corner on the wheat market attracted the greatest attention among grain men and business men in general. The existence of such a syndicate was a matter of surprise to nearly all of them, though they recognized the possibilities that lay within the scope of such a syndicate.

The fact that instead of simply responding to the efforts of these managers the market was swayed by conditions far beyond their control into bringing about a most unprecedented advance led many of the local business men to wonder how the working of the syndicate could have been so successfully managed. A great deal of surprise was also expressed that the matter could have been carried on so quietly. This supposed quiet, however, did not succeed in keeping back rumors of the effort that was to be made even so far back as early summer.

Indeed, Robert Lindholm, the well known authority, writes on October 13 reiterating his belief that the Republican National Committee would undertake just such a work. He quotes from his own utterances of the date of July 30 as follows:

"A rumor prevails that the Republican National Committee will get up a syndicate to bull the grain markets, and, of course, it is ridiculed, but it must be admitted that it would be an effective campaign and not necessarily an expensive one. In fact it might be profitable. I have always believed that the necessities of the situation would compel such a step, and it would not be the first time that quotations have been made to influence politics."

He then goes on to say under the former date of October 13, in regard to this syndicate's operation:

"We are having it now, notwithstanding all denials. It is very plain. The leading railroad man in the Northwest is advising farmers to hold their wheat and railroads cannot furnish cars enough for either wheat or corn. So while the grain crops have appreciated in value \$175,000,000 the farmers will not be able to profit much by it now."

This statement shows what was expected at that time, and the events of the week show how closely keen observers called the turn.

THE FIGHT IN NEW YORK.

The "Gold-bugs" Refer to the Farmers as "the Ignorant Clodhoppers of the West and South."

A gentleman writing from New York City to the Bracken Chronicle says: "Broadway and the leading streets in the wholesale districts down town are decorated with hundreds of immense and costly silk banners stretched across the streets, every banner bearing the names of McKinley and Hobart. Not a Bryan banner to be seen in that locality. The Democrats here purposely refrain from erecting banners in this district. These banners are all uniform in size and we found upon investigation that all were made by the same firm, ordered and paid for by Mark Hanna and put up without a cent cost to these houses."

"A free silver Republican made a short speech at a Democratic meeting on the East Side the other night. The next day he received a note from his bank demanding immediate settlement of his account."

"Speaking with W. M. Smith, of the Patent Moulded Collar Co., a New York and Boston monopoly, in reference to the 53 cent dollar, we told him that he and all the intelligent portion of the gold-bug party knew that remonetization of silver would cause our dollars to increase in value to a parity with gold in a short time. Note his remarks. Yes, said he, we know it, but this country is made up largely of dam fools, and the 53 cent dollar scare, backed by brains and money, will surely defeat the ignorant clodhopper element of the West and South, and the brainless riff-raff of the East."

The October weather so far is as pretty as heart could wish for any purpose, seedling, especially. A large acreage of wheat will be sown.

Miss June Pelham was called to Covington about the middle of last week to attend the funeral of her aunt which took place at some point in Indiana.

There are four candidates running for Marshal for this little town. The election the third of November, and be sure when you make your choice to select a sober, honest man with good reputation.

Hon. James P. Tarvin, of Covington, was here on time last Saturday and made a telling speech to a good crowd, and gave many convincing proofs and facts in favor of silver. It had a good effect upon all present.

J. A. Jackson, who has been poorly for some months, was taken suddenly last Sunday morning with Bright's disease or kidney trouble. He had to call in the doctor about 3 o'clock in the morning. Dr. Kelley is attending the case.

Remember J. A. Jackson has been in business in this place since 1866 and during that time has had many ups and downs, and during the greater part of his life—rather prosperous. Until the last few years—by being too kind and lenient to my friends I have been the loser, and seemingly they are slow to lend the helping hand even in my sore affliction. I hope better things of me in the future. I am going to try it again. My friends, hope you will give me a call. I will have on a moderate supply of the latest style goods and at moderate prices, either in gold or silver, or will take in exchange all kind of country produce at cash prices. Come.

Rev. Jones, of Mt. Carmel, preached a most excellent sermon at Mt. Gilead school house Sunday afternoon.

Tobacco stripping is perhaps farther on the way than at any previous period October 19th. Many farmers are fully one-third done.

Corn is abundant in this neighborhood. Buyers are offering only 15 cents a bushel, but none is selling at that price; all are fixing to crib.

The political pot has been boiling furiously here until recently. It has now subsided. The mess is done, and everybody will vote for Bryan and Sewall.

The sale at Cary Ambler's last week was well attended and, in anticipation of Bryan's election, everything sold well. Mr. Ambler and his estimable family will move to Virginia shortly after election and to take possession of a large estate left him by his mother. Their many friends regret to lose them from their society.

Uncle Dick Willett says that if Mark Hanna is elected President he will move at once to Mexico, and go to raising hogs and cattle. According to the "Public Lie" butter in Mexico is worth 75 cents a pound and bacon 36 cents, and he can hire hands at 40 cents a day. "Uncle Dick is only trying to be funny, he has no idea of going, because he don't believe the story. Uncle Dick seems to think that with butter and pork at such

prices he could afford to pay his laborers more than 40 cents a day, in fact he says he would be compelled to do so, or his hands would all quit and go to raising hogs and milk cows for themselves. He says he can't see, for his life, provided this remarkable paper is telling the truth, why the Mexican laborer don't leave there and come up here, where he can get, according to the same report, \$2.50 a day for his labor and buy his butter at 14 cents a pound. Yet the poor fools will stay down at that everlasting free silver country and work for half pound of butter a day, when he could step across the line, and it nothing but a landmark, into Mark Hanna's blessed gold-standard country and get forty pounds of butter a day for the same work. Uncle Dick says the Mexican laborer is the biggest fool he ever heard of. Uncle Dick is quite a philosopher and says he has been on this old planet seventy-three years and has never yet seen a Mexican up here hunting a home, but that he has seen vast numbers from the gold standard countries of Europe, and he notes also the fact that the Mexican can stand with one foot in the United States and the other in Mexico, and yet don't come over to get his forty pounds of butter a day for his labor, while the Italian, the German, the Hollander, the Austrian, etc., must cross the stormy Atlantic, and instead of getting \$2.50 a day when he comes he shoulders a budget of tin and starts out over the country happy in the change. Uncle Dick reasons on these things like this: If the Mexican laborer was in such a sore plight he would be getting away from there, and we would see some of them, occasionally, about Mt. Gilead. And on the other hand those poor fellows who must cross an ocean to get here are surely very much oppressed in their native country or they would not make such a great sacrifice to get here. And it does look somewhat that way.

The suggestion to lessen the output of tobacco next year is evidently a good one, but is hardly practicable in the way suggested, from the fact that many will not go into such an arrangement, but, in anticipation of better prices, will more likely double their crop. Would it not be better to have an agreement to restrict the output next spring to one third or one half of the year's output.

Mr. J. H. Wallingford spent several days in Newport last week with his son, Dr. Stuart Wallingford, and family. He reports his son doing well and getting a fine practice. He witnessed quite a delicate surgical operation while there, performed by Dr. Wallingford, assisted by Dr. McVane, of Cincinnati. The doctor's specialty is eye, ear, throat and nose diseases.

A large number of the Stonelick Sunday school scholars took quite a pleasure trip to Esculapia Springs Saturday. Mrs. Holiday, Mrs. Pollard, Mrs. Roe, the Misses May Sedden, Dade Tolle, Ella Shipley, Alberta Darnall, Bessie Shipley, May Knowshaw and the Messrs. Cyrus Case, Thaddeus Bullock, John Stitt and Henry Darnall were among the crowd. Mr. Charlie Wells who

is the Sunday school Superintendent was chaperon of the excursionists. They were a Bryan party and gave the citizens of Lewis several salutes for Bryan and free coinage.

AUGUSTA, BRACKEN COUNTY.

Wednesday, Mike Connors rode into Augusta in an intoxicated condition, and on seeing a freight train coming down the track, proceeded to try to out-run it. He ran his horse at break-neck speed until he reached the tunnel below town, when his horse's feet were caught in the track and the animal broke its fore legs. The horse was so entangled in the track that they had to cut all of its legs off to get it out of the way of the train. Connors was but slightly hurt. He claims that the horse ran away with him, and there was no arrest made.

The Red Men of Augusta are making arrangements to have a great banquet on the 29th inst. They have a strong lodge here, composed of many of the best citizens of the town.

Why is it that one man is old and decrepit at 45, and another hale and hearty at 80? It depends on the care he takes of himself. Often a man's body gets out of repair—the trouble grows until it lays him out in bed. Whenever a man feels that he is not well as he ought to be, whenever he is listless, without energy and without vitality, whenever he finds that he is losing weight and that his ordinary work gives him undue fatigue, he needs Dr. Pierce's Golden Medical Discovery. If he keeps on working with his liver inactive and his blood impure—he keeps his nerves and body under a constant nervous strain. He will not be hearty when he is old. The "Golden Medical Discovery" cures many so-called diseases because nearly all illness springs from the same thing—bad digestion and consequent impure blood. The "Discovery" makes the appetite good, the digestion strong, assimilation easy, and the blood rich and pure.

And then go ahead. If your blood is impure, your appetite failing, your nerves weak, you may be sure that Hood's Sarsaparilla is what you need. Then take no substitute. The animal attempted to run down Gray alley, but the lady who was driving was cool and collected and turned the horse down Third, when he fell and overturned the buggy on the pavement. The ladies fortunately escaped with but slight injury. The buggy and harness were badly wrecked. The timely arrival of Mr. Paul Cullen prevented what might have been a very serious accident.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired-out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the liver and kidneys and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c. or \$1 per bottle at J. J. Wood's drug store.

TERRIBLE TRAGEDIES.

La Which Two Former Residents of Dover Meet Their Death at Woodward, Okla.

The Saturday Blade, a sensational paper of Chicago, contained a column article, with an illustration, of a tragedy that occurred in a saloon at Woodward, Oklahoma.

Three parties in the tragedy formerly resided in Dover and have relatives there. They are Judge Jennings, known as Dr. Jennings, and two of his sons, Edward and John. Last spring Edward opposed "Senator" Temple Houston in a lawsuit, hot words ensuing between the two lawyers during the suit. The night following the suit the two met in a saloon when the quarrel was renewed. Houston pulled a pistol and shot Jennings, killing him instantly. John Jennings, who was in the saloon, leveled his pistol at Houston's breast and was about to shoot when Sheriff Love, a friend of Houston's, sent a bullet through the wrist of John Jennings, knocking the revolver from his hand.

A feud has existed between the families since. Last Monday week Judge Jennings was walking on the streets of Woodward, when he met a son of Houston's. The boy said something to him and he spat in his face, insulting him grossly. He hastened to tell his father, who immediately started to look for Judge Jennings.

On finding him he stepped close, placed the revolver to his heart and fired and in five minutes Mr. Jennings breathed his last, thus paying the penalty for spitting in the school boy's face.

One noticeable incident in this sad affair is that the father was killed at the counter, over which death was dealt in the same saloon where his son was called to meet his Maker.

CIGAR MAKERS PROTEST.

They Are Jumping on Governor Bradley and the Other Commissioners of the Sinking Fund—That Prison Cigar Factory.

FRANKFORT, Ky., October 20.—The Commissioners of the Sinking Fund have begun to receive protest against the proposed cigar factory to be conducted by convicts.

Recently it was stated in these dispatches that the commissioners, who had found profitable employment for all the local convicts, were contemplating the establishment of a cigar factory to be run by Northern parties at the Eddyville Penitentiary.

One letter pleads with the commissioners not to "commit this outrage against organized labor," and warns them that it will ruin them politically and wreck the party now in charge of the State government.

Mrs. C. W. Hall's Funeral.

The funeral of Mrs. C. W. Hall took place yesterday afternoon from the M. E. Church, South, after which all that was mortal of this good Christian lady was laid to rest in the cemetery. Thus another happy one is shrouded in sorrow, and three young children bereft of the tender care and solicitude of a loving mother, and the husband of a devoted and affectionate wife. They have the sympathy of the community in this sad hour.

Allingham Lodge No. 217, Brotherhood of Locomotive Engineers, of Covington, attended the funeral in a body, and many other friends of the family were present from a distance.

Secret of Fertility.

To a mind that gauges the values of gold and silver by the annual production, statistical history must be as full of delightful surprises as a fairy tale. Take these figures, for example, among acres more of the same sort:

Percentage of Market Value.			
Production.			
Silver.	Go. d.	Silver.	Gold.
1801 to 1810.....	76	24	15.61 to 1
1811 to 1820.....	22	78	15.76 to 1
1821 to 1830.....	31	68	15.48 to 1
1831 to 1840.....	50	50	31 to 1

It looks as if some force must have been in operation before 1870 to keep the values of gold and silver steady in spite of fluctuations in production.

It was the fact that until 1873 we had the free coinage of both gold and silver. At the present time we are producing more gold than ever before in history, but silver, being denied coinage inevitably declines in value.

Will Gold Monometallists Explain?

The people of the United States have yet to hear from the gold monometallists of the Republican party and from the gold monometallists lately of the Democratic party, an intelligent defense of their position.

The evils of gold monometallism are positive, existent, already demonstrated. The evils which might attend free silver coinage are still purely supposititious, theoretical, predicted, perhaps logically, by scientific reasoners, but still to be manifested. While we coined gold and silver, as we did until 1873, none of these disasters which are supposed to attend upon free silver coinage befell us. Since we stopped that coinage all the evils which the closest students regard as inseparable from gold monometallism have fallen to the lot of the nation.—New York Journal.

Bogus Mexican Dollars.

Specimens of the so-called Mexican dollars which the McKinleyites have been using as arguments against free silver have been sent to the Mexican secretary of the treasury, who pronounces them fraudulent. It is not surprising that the McKinleyites have been passing them at a discount. If the fellows who have been dealing in this counterfeit money are ever caught in Mexico they will find trouble.

The Republican national committee has succeeded in selling 200,000 of these counterfeit Mexican dollars. They received \$100,000 for them, nearly all of which is net profit. The have put this in their campaign fund. By this illegal and criminal transaction they have robbed American workmen of \$100,000. This is what they term an argument in favor of "honest money."

A Farmer's Sudden Death.

ANDERSON, Ind., Oct. 23.—Michael Bronnenberg, a wealthy farmer in this county, and a leader in the Bryan demonstration here Wednesday, went home well that evening and was found dead yesterday morning. The family has ordered a postmortem examination. He was the second white child born in Madison county.

Young Woman Assaulted.

RICHMOND, Ind., Oct. 23.—Miss Bertie Postin was assaulted last night by three white men, who knocked her unconscious and then dragged her considerable distance. They would no doubt have accomplished their evident object had not Miss Postin's companion warned the police. The men are now in jail awaiting trial.

WASHINGTON, Oct. 23.—The roof and upper walls of Ebenezer (colored) Methodist church on Capitol hill fell in yesterday, burying in the ruins Samuel Brown, William Johnson, A. W. Dangerfield and Abraham Lee, all colored. The men were taken out alive, but some of them were seriously injured internally. The church was damaged by the recent storm and the men were engaged in making repairs.

MONEY CAME TOO LATE.

Despondent Woman Kills Her Little Son and Herself.

KANSAS CITY, Oct. 23.—Mrs. Kate Bascom of Clinton, Mo., killed herself and her 4-year-old son George, at a lodging house in Oak street Wednesday night, by closing the door and windows of the room and turning on the gas.

Mrs. Bascom went to the rooming house last Saturday. She was without money, but said that she expected money by every mail from her husband at Clinton. Day after day passed and the money did not come, and she became so despondent that she resolved to kill herself and her son. The letter containing the money came yesterday afternoon, and when the lodging house keeper went to Mrs. Bascom's room with it she found mother and son dead.

A BIG DROP IN WHEAT.

December Goes Down Five Cents and Heavy Losses Result.

CHICAGO, Oct. 23.—Almost 5 cents a bushel was clipped off the price of wheat yesterday. December, which closed Wednesday at 75 1-4 cents, finished yesterday at 70 1-2 cents. It is not often that the price has such a sensational and sudden collapse. Stop loss orders were in the hands of every commission man who had customers long on wheat, and when a decline came yesterday it caught the most of these. It was practically impossible to follow exactly the stop loss orders at any given figure, and the result was an almost unanimous rush to sell.

The closing 15 minutes on 'Change were marked by scenes of almost unparalleled excitement. In that brief period the price of the December option, which had been tumbling around 73 1-4 to 73 3-8 cents in an uncertain fashion for some time, fell to 70 1-4—the low point of the day. Most of the late decline occurred within a space of five minutes. Liquidation had been going on on a large scale all day. The fact that Armour was offering lots of cash wheat was construed as meaning that there was no immediate prospect of an improvement in the money market.

About 1 o'clock Cudahy's wheat began to go over. It was the last straw. In a minute the wheat pit, which had been lively enough before, was in a perfect pandemonium. Wheat was thrown on the market in a perfect deluge. From 73 cents to 72 cents, which drop occurred in almost less time than it takes to chronicle, it was impossible to sell a bushel. Down the price went till 71 1-4 cent had been reached. Then a short breathing spell occurred.

The market quieted down for an instant, and the price rallied 1-4 of a cent, though no support was given in the meantime. But it was the calm before the storm, away it went again, and the closing minutes of the market was a perfect panic. No one wanted to buy, every one wanted to sell, and a minute before closing December was offered at 70 1-4 cents. As the closing bell rang out 70 1-2 was being quoted.

MILLIONAIRE ARMENIAN GUILTY.

British Tars at Lemnos Give Provocation For the Mussulman Outbreak.

NEW YORK, Oct. 23.—A special to The Herald from Constantinople says the most sensational trial ever known in Turkey has just been concluded. Apik Effendi, the millionaire Armenian, has been condemned to three years' imprisonment in a fortress. He was accused of being chief of the revolutionary committee. The latter was considered not proved, but his connection with the movement was established. He was given the minimum penalty possible.

As regards the troubles at Lemnos, the truth is that while the British fleet was anchored in the port of Mudros, some sailors on liberty hired horses from some shepherds and went in to themountains, where they excited the Mussulmans' wrath by the violation of two Turkish women. On returning they met the demands of the shepherds for payment by thrashing them. Three hundred sailors landed at Mudros, ate and drank in the taverns and then refused payment. They also entered Mussulman houses for low purposes and beat the police and people.

THE MYSTERY SOLVED.

A Burglar Trap of His Own Contriving Killed H. J. Andrus.

NEW YORK, Oct. 23.—Chief Mangin of the Yonkers police said that the mystery surrounding the tragic death of Hamlin J. Andrus of the Arlington Chemical company, who was killed by an explosion in his office Wednesday, has been solved. Chief Mangin said that Mr. Andrus had not been killed by anarchists, nor was his death the result of any plot as at first supposed.

The chief, after a careful investigation, has come to the conclusion that Mr. Andrus met his death while experimenting with a machine which he intended to use on the safe in his office to kill burglars, should they attempt to rob the safe.

The brother and son of Mr. Andrus do not accept Chief Mangin's theory, but insist that Mr. Andrus was the victim of a murderous plot. Coroner Miles, too, says that he is not ready to concede that Andrus was accidentally killed, and he will continue the investigation until the mystery that surrounds the tragedy shall have been cleared away.

SENATOR LINDSAY TO RETIRE.

Disgusted With Politics, He Longs For Private Life.

FRANKFORT, Ky., Oct. 23.—Senator Lindsay has become disgusted with politics and will retire to private life at the close of his present term. This comes from a source so close to Senator Lindsay as to practically amount to an authorized declaration from the senator himself.

It has been known among Senator Lindsay's select friends for some time that he regretted having given up his magnificent law practice for a seat in the senate, and he has lately told them that the bickerings of politics have become so distasteful to him that he welcomes the close of his term, when he proposes to eschew it for good and all. It is said that he has at times grown moody over the matter and expressed a desire to resign. The only public ambition which Senator Lindsay covets, so his friends say, is a place on the supreme bench, where his labors would be more in line with his tastes and attainments.

Plenty of Protection.

The exports of domestic merchandise for the seven months ending with July show a gain of \$66,000,000 over those for the corresponding period of last year. The excess of all exports over imports up to August is \$109,000,000. The increase in the exports of manufactures is especially encouraging. The increase over last year is 28 per cent. Manufacturers are thriving under the Gorman-Wilson bill just as much as is possible with the present gold standard.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
